WEST QUEEN WEST PLANNING STUDY MOVEMENT ISSUES MEETING Bathurst Street to Roncesvalles Avenue

City Planning staff are continuing a study to review the policy context, built form standards and heritage character of the properties on both sides of Queen Street West from Bathurst Street to Roncesvalles Avenue. The study will also look at movement in the corridor, focus on understanding the character of the street and creating a vision for future development.

Please join us for a presentation and open house which will focus on movement – transit, walking, traffic, parking and cycling - in the corridor. Staff from the TTC, the Toronto Parking Authority, Transportation Services and Toronto Cycling will be on hand to share information and take your questions and comments. Feedback received at this meeting will be vital to understanding movement issues in the corridor and to help staff develop recommendations for City Council.

Date: March 30, 2015
